#### **PROFILE**

I am a hard worker, team player and proactive person. I am always looking for new challenges and ways to improve my skills. My passion is software development, which drives me to push myself outside my comfort zone to acquire new knowledge and embrace new challenges.

#### PROFESSIONAL EXPERIENCES

# Software Developer

AddC Labs Technology | Full-time | April 2024 - Present Montreal, Quebec, Canada · Remote

Used problem-solving skills to build a Full-stack application (web and mobile), collaborating with team members on development, design and configuration.

#### **Development Activities**

- √ Front-end:
  - Develop an application in Vue.js 3 and Vuetify framework from scratch
  - Build, improve and adapt application Figma design
- √ Back-end:
  - Develop an application in Python 3 with Flask framework and Redis from scratch
- ✓ Participate in Agile Ceremonies
- ✓ Participate in Code Review for both FE & BE
- √ Code revision
- √ Bug Fix

#### Tech stack/Tools

- √ Front-end:
  - JavaScript, Vue.js 3, Vuetify Framework, HTML, CSS
- √ Back-end:
  - Python, Flask Framework, Redis
- ✓ DB:
  - o MongoDB, Redis (Cache)
- √ General:
  - VS Code (Visual Studio Code), Android Studio, Git and GitHub, Postman, Figma

Skills: JavaScriptJavaScript – Python (Programming Language) – Vue.js – Vuetify – Flask Framework – MongoDB – Redis – Postman API Plataform – Figma – Git and GitHub – Teamwork – Problem Solving

# Software Developer - Internship

AddC Labs Technology | Full-time | October 2023 – March 2024 Montreal, Quebec, Canada · Hybrid

I used my problem-solving skills to build a new application, collaborate with team members on development and configuration, and contribute to legacy code.

#### **Development Activities**

#### **CONTACT**

Montreal, QC

#### LANGUAGES

English - Professional Work Proficiency

French - Limited Work Proficiency

Spanish - Professional Work Proficiency

Portuguese - Native Proficiency

#### **EDUCATION**

# <u>AEC/ACS - Information Technology</u> Programmer Analyst

College LaSalle Montreal

Jan 2022 - Dec 2023 | **Canada** | R Score: 33.629 | GPA: 4.0

#### **Bachelor in Computer Science**

Catholic University of Pernambuco Jan 2008 - Jul 2015 | Brazil

#### SKILLS

## **TOOLS AND TECHNOLOGIES**

#### **ACADEMIC NOTIONS**

- ✓ Develop an application in Dart language and Flutter framework from scratch
- ✓ Participate in Agile Ceremonies
- ✓ Participate in Code Review for both FE & BE
- √ Code revision:
  - New Front-end (Dart Flutter)
  - Legacy Front-end (Swift)
  - Back-end (REST API in Python with Flask framework)

#### Tech stack/Tools

✓ Dart - Flutter, Swift, Xcode, Python with Flask framework, MongoDB, Git and GitHub, Postman, Trello, Figma

**Skills:** Flutter – Dart – Swift – Python – Flask – MongoDB – VS Code – Git – GitHub – Xcode – Trello – Figma – Potman API Platform – Problem Solving – Agile Methodologies – Team Player

# **Software Development Technical Supervisor**

AddC Labs Technology | Two Months Contract Part-time | May 2023 – June 2023 Montreal, Quebec, Canada · Hybrid

I supervised and supported interns on various projects by removing impediments and helping them solve code and configuration problems.

- ✓ Supervise interns during the execution of a brand-new project
- ✓ Support interns with coding challenges to ensure project execution is on track
- √ Coach and lead interns through challenges
- ✓ Participate in agile ceremonies
- ✓ Participate in Code Reviews for both FE & back code base
- ✓ Code revision: Front-end (Swift) and Back-end (API in Python with Flask framework)

# Tech stack/Tools

✓ Swift, Python with Flask framework, MongoDB, Xcode Git and GitHub, Postman, Trello, Figma

Skills: Swift – Python – Flask – MongoDB – VS Code – Git – GitHub – Xcode – Trello – Figma – Potman API Platform – Problem Solving – Agile Methodologies – Team Player

#### **Computer Science Student Association - Volunteer**

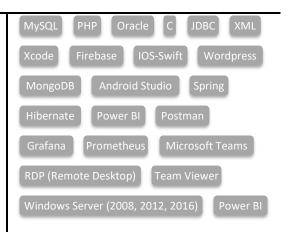

INT - Innovators in Technology | January 2022 – April 2024 Montreal, Quebec, Canada

INT is the official Computer Science student association at LaSalle College – Montreal. It's a student volunteer group from different IT departments (Programming, Networking, and Video Gaming development).

- Contribute to the organization of IT-related Events
- Development of software solutions (web).
- Build and manage the website for new projects and content.
- Participate in weekly meetings to verify progress.
- Help plan Tech Week 2022
- Contribute to building Tech Week 2022 hot site
- Assisting Student members in understanding and implementing concepts

# Remote Service Engineer - Proactive Monitoring Team Lead of the Latin American Region

**Philips** | Full-time | **October 2019 – January 2022** Guadalajara, Jalisco, **Mexico** 

#### PROJECTS AND ORGANIZATION

#### Tech Week 2023 Website - College LaSalle

Built by a group of 5 Associated College LaSalle Montreal Members: www.intlasalle.com
Applied Skills: vue.js – JavaScript - node.js - nuxt – npm - bootstrap5 - CSS3 - HTML5 – Git – GitHub – problem-solving – agile - teamwork – agile

## JAVA EE (JSP-SERVLETS) User Managements

Built-in three people to learn and implement an application in JAVA EE

Applied Skills: Intelli1 - OOP - JavaScript- XMI -

Applied Skills: IntelliJ - OOP - JavaScript- XML - MVC - Singleton - CSS - MySQL - HTML5 - Git - GitHub - JDBC - GlassFish - Bootstrap - problem-solving - teamwork - agile methodologies

#### TRAINING

Vue.js Intermediate Level Workshop (Wizeline Academy)

Javascript Fundamentals Workshop (Wizeline Academy)

#### HOBBIES

**Swimming** 

Soccer

Travel

## Team Lead – Remote support of Health Care Information System (HCIS)

- Manage engineer's customer support quality
- Conduct employee performance evaluation
- Improve customer support care delivery and quality
- Create reports and procedures to improve support service
- Coach and train engineers in customer support
- Monitor quality, coverage and SLA of support tickets
- Provide reports and analyze data using databases, making SQL queries (MySQL, Microsoft SQL Server, Oracle)

## **Customer Support - Health Care Information System (HCIS)**

- Handle tier 2 critical support tickets
- Communicate with customers via web, e-mail or call when needed
- Install and configure monitoring tools on Windows servers
- Improve monitoring tools in collaboration with different regions
- Provide support to healthcare applications (PACS, RIS, CD Direct, Vue Motion)

# HCIS Incident Support Tech Lead - Proactive Monitoring Team Lead of the Latin American Region

Carestream Health | Full-time | November 2018 – October 2019 Guadalajara, Jalisco, Mexico

#### **Team Lead**

- Manage engineer's customer support quality
- Conduct employee performance evaluation
- Improve customer support care delivery and quality
- Create reports and procedures to improve support service
- Coach and train engineers in customer support
- Monitor quality, coverage and SLA of support tickets
- Provide reports and analyze data using databases, making SQL queries (MySQL, Microsoft SQL Server, Oracle)

# **Customer Support - Health Care Information System (HCIS)**

- √ Handle tier 2 critical support tickets
- ✓ Communicate with customers via web, e-mail or call when needed
- ✓ Install and configure monitoring tools on Windows servers
- ✓ Improve monitoring tools in collaboration with different regions
- ✓ Provide support to healthcare applications (PACS, RIS, CD Direct, Vue Motion)

# <u>HCIS Incident Support Specialist – HCIS Proactive Monitoring and Cloud</u> Specialist

Carestream Health | Full-time | April 2018 – November 2018 Guadalajara, Jalisco, Mexico

# **Customer Support - Health Care Information System (HCIS)**

- √ Handle tier 2 critical support tickets
- ✓ Communicate with customers via web, e-mail or call when needed
- ✓ Install and configure monitoring tools on Windows servers
- ✓ Provide support to healthcare applications (PACS, RIS, CD Direct, Vue Motion)
- √ Handle cloud issues by working with security and network teams based in the US

# **HCIS Incident Support Specialist**

Carestream Health | Full-time | February 2017 – April 2018 Guadalajara, Jalisco, Mexico

# **Customer Support - Health Care Information System (HCIS)**

- ✓ Communicate with customers via web, e-mail or call when needed
- √ Handle tier 2 critical support tickets (critical and non-critical issues)
- ✓ Provide support to healthcare applications (PACS, RIS, CD Direct, Vue Motion)

# **Junior Software Developer**

Pitang | Full-time | March 2014 – February 2015 Recife, Pernambuco, Brazil

### **Software Development**

- ✓ Participate in scrum ceremonies
- √ Build JFS/JSP applications using agile methodologies
- √ Collaborated with IBM consulting specialist on installing QM, RPE and CLM
- √ Build installation guide and procedure
- √ Problem-solving
- ✓ Participate in Agile Ceremonies
- √ Collaborate with team members

#### Tech stack/Tools

√ Java, JSF, JSP, JDBC, Git, GitHub

# **Software Developer Trainee**

Pitang | Full-time | September 2013 – March 2014 Recife, Pernambuco, Brazil

# **Software Development**

- ✓ Participate in Agile Ceremonies
- √ Collaborate with team members
- Development training on Java Web (JSF)
- ✓ Build application (JFS and JSP)

# Tech stack/Tools

- √ Java, JSF, JSP, JDBC
- √ Git, GitHub
